

FREEDOM TICKET FOR LIFE

FACT: Most trafficking victims are girls or women. They are more vulnerable because in many countries, they don't have equal access to education

ACT: Run to give them freedom

Human trafficking is to be recruited, deceived and forced to work in places like factories, farms, private houses, many are made to sell their bodies to strangers.

Most of those trafficked are girls and young women.

Too many of these girls have never had an education.

If girls are not given the same education and training opportunities as boys, the fewer her options and the more vulnerable she is to trafficking. It's as simple as that.

**Education and training means choice.
Choice means freedom.**

HOW?

Raise money to support 4 projects in trafficking hot-spots by running, walking, jogging, crawling, hobbling or racing around on wheels and **give vulnerable girls their freedom ticket for life.**

You will find everything you need at
