

Evidence list for Year 11 Teacher Assessed Grades 2020 2021

In order to grade Year 11 students this year, teachers have been asked to make a holistic judgement of each student's performance based on a range of evidence relating to the qualification's specification content that they have been taught. Below is a list of the sources of evidence that will form the basis of the grades submitted for each of the subjects studied in Year 11. For some subjects this has been directed by the examination board because changes have been made to the course. Last year, some subjects were also able to award Centre Assessed Grades (CAGs) based on work completed up to that stage of the course. If this was the case, these have been included in the evidence submitted.

Subjects are listed below in alphabetical order.
