

OAW MFL Curriculum

We believe that language learning can open doors for all our students and can offer so many opportunities and so it is key. We have designed the MFL curriculum to encourage our students to explore and gain a deeper understanding of different cultures with the hope that our students become more aware of the world outside of Grimsby and much more inquisitive about what the world can offer them. It provides them with opportunities to communicate and interact with others more effectively.

Our focus is on developing our students' competence in the four skills of listening, speaking, reading and writing, building up a sound foundation of core grammar and vocabulary. Initially, this will provide them with the tools to understand and communicate personal and factual information and then go on to enable them to express their ideas and views on topics that go beyond their immediate needs and interests with confidence.

We also aim to equip our students with a language qualification that will enhance their career prospects.
