

Maths	AQA Maths
Information and support.	<ul style="list-style-type: none"> • Paper 1 - non-calculator 80 marks • Paper 2 – calculator 80 marks • Paper 3 – calculator 80 marks • Watch the maths PowerPoint on the OAW website • Students are taking practice papers in lessons every other week; these papers are marked, and students look at their errors. Ask your child which topics they need to revise • Continually ask about the revision classes they are attending, they are on, regardless of what they say! • Ask to look at the summer exam information, this shows which topics are on which paper this year. Only these topics need to be revised • Log into Hegarty Maths and check if they are using it to revise • If in doubt, about anything, please do not hesitate to contact the maths team
Useful resources	<p>Hegarty Maths</p> <p>Maths Key Cards app</p> <p>CGP Revision Guides and workbooks</p> <p>We advise these revision guides, however as a maths department we believe the best way to revise is practice, they need to ensure their attendance is high too, so they get the practice with past exams and that they complete homework which continually reinforces their learning.</p>
